Fulfillment

Fulfillment options are unavailable until the batch edit checks have been run and the batch has been locked.

- **FIRE E-File:** this option sends the batch to ftwilliam.com for e-filing fulfillment (additional [fee](#) applies). Once submitted returns are processed through an automated system. We cannot make any changes to the forms once submitted.
 1. Selecting the link will redirect users to the agreement and authorization screen which users will need to review and select the **submit** button for the batches to be submitted.
 2. This feature uses ftwilliam.com's TCC so customers do not need to register for their own.

Note: Accounts are not billed immediately when using this feature. The Billing Contact for the account will receive a paper invoice from CCH Inc. around the first business week of the following month after generation

Download FIRE Files

- This feature allows users to download a .TXT file to file outside of the software with the IRS FIRE site.
- To utilize this feature the account must obtain a TCC Code specifically for the Form 8955-SSA by completing an online [IR Application](#).
 - Once obtained, the Master Admin user for the ftwilliam.com account may go to the "Admin Menu" and click

on "Edit Company Profile."

- Towards the bottom of this screen, there are fields to enter the 8955-SSA TCC Code, Accounts Company's Contact, EIN, and State. Make sure to click "Update" at the bottom of the screen.
 - After the batch is locked the **ZIP** file link will be enabled. This link will download a ZIP file (or TXT file if only one plan is present) containing one file per Form 8955-SSA prepared and placed in your batch. **Note:** Users will have to upload each file within the ZIP file separately through the IRS FIRE site; unlike batch uploading as for 1099s.
